

PRESS RELEASE / Subcontracting Trade Fair 2022

Cursor Oy brings technology industry companies from the Kotkan-Hamina region and Loviisa to the Subcontracting Trade Fair 2022

Kotka-Hamina region and Loviisa development company Cursor Oy and the companies HNR Konepaja, Juhani Haavisto Oy, KTT Tekniikka, Loval Oy and Suptek Oy will be presenting their services at the Subcontracting Trade Fair 2022 (stand C549).

The Kotkan-Hamina region development company Cursor Oy is responsible for business services, Invest in services, tourism services and regional development projects for the municipalities of Loviisa, Pyhtää, Kotka, Hamina, Virolahti and Miehikkälä.

At the Subcontracting Trade Fair 2022, together with the local companies of the Kotkan-Hamina region and Loviisa will be the Invest In team from Cursor Oy. The team is actively selling and marketing the region together with national and international partners. Our services include sourcing suitable plots and premises for companies locating in the region, considering the region's strengths and clusters. With the help of our local cooperation network, we help to implement even larger investments safely. We take care of the aftercare of the companies located in the region and ensure the start of operations, the smoothness of things and support in the planning and implementation of additional investments.

In the same department C549 you will also find the following companies:

HNR-KONEPAJA OY is a custom and subcontracting engineering workshop established in 1983. The company's primary products include medium welded steel structures, plate work, machining and their combinations using modern CNC machines, equipment installations and industrial maintenance.
